OF EVERY DESCRIPTION.

The facilities of our establishment, for the perfect execution of every description of lithographic work, are most ample. The earliest advantage is taken of all modern improvements, and our personal attention is given to every branch of our art, enabling us to compete successfully, in excellence of work, as well as moderation in prices, with any kindred establishment in the country.

Lithographic Establishment
A. Hoen & Co.
Baltimore, Md.

Whilst offering our services to the New Orleans Trade, we beg to say that our establishment is one of the oldest, having been established in 1835, as well as one of the most complete in the country. Our large and select stock of vignettes and other Commercial Blanks, together with a large corps of artists and printers enable us to compete successfully with any of the New York houses in Price, Quality of work and promptness of execution. We are willing to duplicate any order filled there.

A SUMMARY OF THE COMMERCIAL HISTORY OF NEW ORLEANS, CONTINUED.

NEW ORLEANS:

COMPILED AND PUBLISHED BY CHARLES GARDNER,

No. 5 Commercial Place, Corner of Camp.

1861.

Entered, according to Act of Congress, in the year 1861, by CHARLES GARDNER, in the Clerk's Office of the District Court in the Eastern District of Louisiana.

PREFACE.

The Twelfth Volume of the New Orleans Directory, is now offered to the public; we trust more complete in all its parts, than any previous number.

The principal new feature of this number, is a Directory of the Planters of Louisiana, Arkansas, Mississippi and Texas, as far as information could be obtained.

A new arrangement with regard to certain firms has also been adopted in this number. Heretofore, we have arranged firms alphabetically, according to the name of the senior partner, notwithstanding his given name did not appear in the style of the firm.

In this number, all firms in which the given name of the senior partner does not appear, are arranged alphabetically according to the style of the firm.

A summary of the commercial history of New Orleans, with extended statistical tables running back beyond the beginning of the current century, and closing with a full statement of the commerce and trade of the city for the commercial year just expired, continued; forming the introductory chapter of this volume, and will be found especially valuable to business men for purposes of reference. The work embraces, besides a general Directory, a full Business Directory; the names of the individual members of all leading firms; Street and Levee Guides; lists of all the public institutions, courts, offices, etc., with the names of all City, State and Federal Officers; the names and locations of the Benevolent and Charitable Associations, with their officers, etc.; a list of Churches, with their locations, pastors, etc., and a large amount of other information, valuable not only to business men but to citizens of all classes.

The publisher renews his acknowledgments to the citizens generally for the readiness and kindness with which they have supplied the information called for by his canvassers, and for the courtesy which he personally has met at their hands in the prosecution of his work.

INTRODUCTION.

In the Introduction to our Directory of last year, we took occasion to refer to the remarkable prosperity and growth of New Orleans, as exhibited in the statistics of a series of years, which we placed before our patrons, and at the same time gave a brief summary of the Commercial history of this City and the State of Louisiana, from the beginning of the present century to the close of the year 1859. We remarked that only about ninety years ago, the population of New Orleans was about 3,200 souls, of which 1,800 were free whites, and that the City contained only 468 houses, and that during the next thirty-five years the increase would appear to have been only about 3,000 souls. The principal articles of trade, and their annual valuation, were as follows :

Indigo	$100,000
Deer Skins	80,000
Lumber	50,000
Naval Stores	12,000
Rice, Peas, Tallow, &c.	8,000

making a value of about a quarter of a million of dollars for the leading staples disposed of in our market for one year, an amount considerably less than half the average daily proceeds of the last commercial year. In 1802 the crops of Louisiana were stated at 20,000 bales of Cotton, (averaging 300 lbs.) 5,000 hhds. of Sugar, and 3,000 lbs. of Indigo. The exports of the same year comprised 34,000 bales of Cotton, (14,000 more than the production,) 2,000 hhds. of Tobacco, 4,000 hhds. of Sugar, 800 casks of Molasses, 50,000 bbls. of Flour, and 3,000 bbls. Pork and Beef.

About the middle of the eighteenth century the population of the region which now constitutes the State of Louisiana, embraced 1,160 white males and 1,130 blacks, the distribution of the former being 800 in New Orleans, 200 in Pointe Coupée, and 60 in Natchitoches. In 1769 the population of the province had increased to a total of 13,538 whites and blacks, of which 1,800 whites and 1,400 blacks were in New Orleans. In 1803 the population of New Orleans was stated by official reports at 8,000 souls, and in 1805, when the City was chartered, the estimates varied between 6,000 and 8,000 souls ; since then the decennial census has shown the following results :

Population of New Orleans, 1810	17,242
" " " 1820	27,176
" " " 1830	46,310
" " " 1840	102,193
" " " 1850	126,375
" " " 1860	about 178,000

The population of the State of Louisiana, at the same periods, was as follows :

	Whites.	Slaves.	Free Col'd.	Total.
1810	34,311	34,660	7,885	76,566
1820	73,383	69,064	10,476	153,407
1830	89,441	109,538	16,710	215,739
1840	158,457	168,452	25,502	352,411
1850	255,491	244,809	17,462	517,762
1860			estimated at about	750,000

The trade of New Orleans exhibited some remarkable fluctuations from 1805 to 1820, embracing the period of the embargo and the war with England. The annual exports during the sixteen years, were as follows :

Years.	Domestic.	Foreign.	Total.	Years.	Domestic.	Foreign.	Total.
1805	$2,338,483	$1,033,062	$3,371,545	1813	1,013,667	31,486	1,045,153
1806	2,357,141	1,530,182	3,887,323	1814	383,709	3,482	387,191
1807	3,161,381	1,159,174	4,320,555	1815	5,055,858	46,752	5,102,610
1808	537,711	723,390	1,261,101	1816	5,251,833	351,115	5,602,948
1809	344,303	197,621	541,924	1817	8,241,254	783,558	9,024,812
1810	1,753,974	136,978	1,890,952	1818	12,176,910	747,399	12,924,309
1811	2,501,842	148,208	2,650,050	1819	8,950,921	817,832	9,768,753
1812	1,025,602	34,869	1,060,471	1820	7,242,415	353,742	7,596,157

Since 1820, the increase in trade has far outstripped that of population, the one being about five-fold, and the other nearly fifteen-fold.

The following table exhibits the exports of domestic and foreign merchandise to foreign ports, and the imports from foreign countries, at this port, from 1821 to 1859 inclusive :

YEARS.	EXPORTS.			IMPORTS.
	DOMESTIC.	FOREIGN.	TOTAL.	
1821	$6,907,599	$364,573	$7,272,172	$3,379,717
1822	7,303,461	675,184	7,978,645	3,817,238
1823	6,769,410	1,009,662	7,779,072	4,283,125
1824	6,442,946	1,485,874	7,928,820	4,539,769

From 1843 to 1849 inclusive, the exports of foreign and domestic merchandise averaged about $ 40,000,000, and the average of the imports from foreign countries was barely $ 9,000,000 per annum.

These figures show only our commerce with foreign nations. That with domestic ports would largely swell the amounts of exports and imports, the former probably to a total of $ 140,000,000, and the latter to 55,000,000, for the last year.

The products of the interior received at New Orleans during the last eighteen years, is exhibited by the following table, which shows an increase during that period of more than three hundred per cent., and during the last ten years, of nearly one hundred per cent.

The commerce of the City with foreign and domestic ports and with the interior is conducted by an amount of shipping, the arrivals of which show an annual average of about 2,000 sea-going vessels and over 3,000 steamboats, as exhibited by the following table :

Arrivals of Sea-going Vessels and Steamboats at the Port of New Orleans each year from 1847 *to* 1860.

From this table there appears to have been a decrease in the arrivals of sea-going vessels of all classes except steamships in which a wholesome degree of progress has been exhibited during the last seven or eigtht years. The decrease referred to, however, is only in number. The vessels coming to this port have been of a larger class from year to year, and the arrivals have exhibited a large increase in tonnage, as will be seen by the following table which gives the arrivals of sea-going vessels at New Orleans for each *fiscal* year since 1850, with their total tonnage, and the average tonnage of each vessel.

The resources of our trade extend into our vast interior, through the channels afforded by the Great Mississippi and its many tributaries, to regions nearly as distant as those reached by the products carried away by the ships which come from all quarters to our port for supplies. Steamers, which ply on the waters of the farthest navigable branches of the Great River, still bring to us a large proportion of the products of their trade, but it is from regions near home that the great wealth of our commerce is derived. The advancing prosperity of the city is well exemplified by the annual increase in the value of the staples arriving from the Great West and Southwest and finding a market at this port, as shown by the following table, which is made up from the records of the New Orleans Price-Current, the statistics of which are of the most reliable character :

It is thus seen that the total value of the products received here has been doubled within the last eleven years, the greatest increase being shown in Cotton, while in Western Produce, etc., the increase has been comparatively small. Going back eight years further we find an equally remarkable growth of trade :

In 1841–42 the total value was.....$45,716,045
In 1842–43 the total value was..... 53,782,054
In 1843–44 the total value was..... 60,094,716
In 1844–45 the total value was..... 57,196,122
In 1845–46 the total value was..... 77,193,464
In 1846–47 the total value was..... 90,033,256
In 1847–48 the total value was..... 79,779,151
In 1848–49 the total value was..... 81,989,692

The following table, compiled from the records of the Price-Current, presents a statement of the Receipts and Exports of Cotton and Tobacco at the Port of New Orleans in each year, from 1822–23 to 1859–60, a period of thirty-eight years :

Taking the moderate estimate of $40 per bale for Cotton, and $70 per hhd. for Tobacco, as the average value for the thirty-eight years, we have a total value for these two staples alone of $1,448,469,860.

The following table shows the receipts and exports of our leading staples, and of the principal articles of Western produce, during the last two years :

The average price of the last year's crop of Sugar was 7⅛ cents per pound, or $82 per hhd. of 1,150 pounds.

The yield of Molasses for the past year was estimated at 17,858,100 gallons, falling short of the production of the previous year about 7,029,000 gallons, and the average price was 35 cts. against 26 cts. per gallon last year. The total value was $6,250,335 against $6,470,817 last year.

In Breadstuffs, Provisions and Western Produce generally, the business of the past year has been of a moderate character, the demand being confined chiefly to our domestic trade, in which, however, a large increase has been shown, especially in the direction of Texas. In a previous table we have given the receipts and exports of the various articles, the differences between which represents the consumption of this city and neighboring places.

The imports of Specie at New Orleans during the past year were $8,444,857.

The Banking Capital of the city somewhat exceeds twenty millions of dollars, upon which the old chartered and free banks are working, besides large amounts employed in private banking houses. Upon this basis the immense amounts of domestic produce are kept in movement with a degree of regularity to be seen in but few of the great marts of the world. The following table shows the capital of the several banks, with the amount of dividends paid by each during the year ending August 31st, 1860.

Banks.	Capital.	Pct.	Dividends Paid.
Bank of Louisiana	$2.793,000	15	418,950
Louisisna State Bank	2,000,000	15	300,000
Canal Bank	3.164,000	10	316.400
Citizens' Bank	1,500,000	16	240,000
Bank of New Orleans	2,000.000	8	160.000
Southern Bank	1,250.000	8	100.000
Union Bank	1,500.000	8	120,000
Merchants' Bank	852.200	8	68,176
Mechanics' and Traders' Bank	1.500.000	8	120,000
Crescent City Bank	1,020,300	8	81,640
Bank of America	507,800	13	66,014
	$18.087,300		$1,991,180

Besides this capital of eighteen millions and upward, some of the banks hold large reserves, that of the Citizens' Bank alone amounting to about one million and a quarter of dollars, making an actual working capital of $2,750,000.

The condition of the banks on the last Saturday of each month during the year ending August 31st, 1860, is shown by the following table:

The New Orleans Jackson and Great Northern Railroad has been completed within the last year, and we are now brought in direct communication with all the principal points of our country north and west, the mails and passengers between New York and New Orleans now making the passage in three and a half days. The Opelousas and Great Western Railroad now extends to Berwick's Bay, a distance of eighty miles from the city, and is expected to reach New Iberia, an additional stretch of forty-five miles, during the next summer. These two roads are of great importance to New Orleans, opening to our trade as they do, the richest sections of the southern and south-western interior, the Opelousas and Great Western passing through an important section of our sugar region and penetrating Texas, will soon connect us with Houston and other leading points in that State, and the connections of the Jackson and Great Northern road, branching through Louisiana, Mississippi and Tennessee, will together draw to our market increased amounts of the rich products of those respective regions, while the ready access of a market will still further stimulate production.

In our last year's Directory we had occasion to congratulate our citizens upon the healthy condition of the city, and the entire absence of epidemical disease during the year then closed. We are now able to repeat our congratulations, as the year now closing has been remarkably free from disease, and we do not hesitate to pronounce New Orleans one of the healthiest cities in the United States. This condition of things may be attributed in a great measure to the improvements in grading, draining and paving our streets, which have been carried forward steadily and vigorously during the past few years, and which have led to other and greater improvements over our great thoroughfares, and in the suburbs, where princely residences are multiplying.

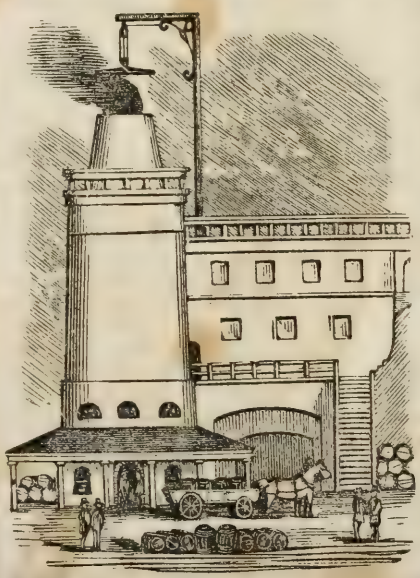
RICHARDS NEWTON, 147 Customhouse street, Marble and Granite Yard, Richards' Cape Lime, etc. The numerous testimonials of the purity and superior quality of the "Cape Lime," for the purposes of Masonry, and particularly for Planters' use in Sugar making, has induced the undersigned, proprietor of the Cape Girardeau Marble Quarries, to extend and adopt such improvements in its production as will enable him promptly to supply the increasing demand, and all orders for this Lime.



All barrels of this Lime will be stamped "Richards' Cape Lime," and of a size equal to the flour barrel or three Winchester struck bushels.

Merchants, Planters and Masons, by addressing the undersigned through their Agents, or the Post Office in this city, with satisfactory references, may have the Lime, fresh from the kilns, delivered at any designated landing on the river, above or in the city of New Orleans, d. 18 Burgundy.
